Personal Computers

Home Collection Service Renet Japan Recycle, Inc. which has signed an agreement with the city, will collect your computer, if needed.

- Peripheral devices such as printers, scanners, etc., and other small appliances can be collected at the same time.
- The total of the box's three dimensions (length, width, height) should be no more than 140cm, and the weight should be no more than 20kg.
- For details and to request collection ReNet Japan (<https://www.renet.jp/>) Search

Waste Collection Boxes Collection takes place at five Small Home Appliance collection boxes located throughout the city.

- Small home appliances (computers, mobile phones, digital cameras, etc.) that fit in the 40cm×20cm collection slot are accepted. Larger sized waste is not accepted at these collection boxes.
- Collection boxes are located at the City Hall Recycling Promotion Division, Recycle Plaza Pegasus Kanyokan, and the general branch offices in Shin-Nanyo, Kumage, and Kano.

Collection by manufacturer When possible, please request collection from the manufacturer.

- If your computer does not have the recycle mark shown, recycling fees, etc. will apply at the time of disposal.
- For self-made computers or computers whose manufacturer is unknown, please contact the PC3R Promotion Association (☎03-5282-7685; <https://www.pc3r.jp/>) and request collection.

Items Which are Not Accepted

Tires, motorbikes, car batteries, fire-extinguishers,
